

CALL FOR PAPERS

Hilton on the Park - Melbourne
192 Wellington Parade
East Melbourne
29th May - 1st June 2006

2006 MMI CONFERENCE

Measurements & Metering Innovation

"Metering - Under the Spotlight"

MMI is Australia's premier metering event attracting leading metering managers, technologists, consultants, regulators, policy makers and many others interested in metering and the issues associated in metering. In 2005 some 200 delegates, speakers and guests attended the event in Sydney. This Call for Papers seeks presentations, panel members and workshops for the conference program in areas dealing with electricity, water and gas utility metering. Some areas that are of interest to delegates include:

Areas of Interest Include	Electricity	Gas	Water
Advanced Metering and/or Communications Technologies	✓	✓	✓
Instant, Remote &/or Automatic Meter Reading	✓	✓	✓
Contract &/or Manual Meter Reading	✓	✓	✓
Metering Strategy, Policy and/or Regulations	✓	✓	✓
Data & Data Management	✓	✓	✓
Standards	✓	✓	✓
The Role of Advanced Metering in Demand Management	✓	✓	✓
Billing & Customer Services &/or Prepayment	✓	✓	✓
In-field Testing	✓	✓	✓

For those interested in presenting a paper please forward to imsevent@bigpond.net.au:

- The presenter's name, title and contact details
- The title of the paper
- A short (one to three paragraphs) description of the paper.

Abstracts should be in Microsoft Word format and emailed to imsevent@bigpond.net.au. Multiple abstracts will be considered however the final choice will be left to the Conference Program Committee.

- Early Exhibitors and Sponsors will be promoted in the Conference Program.

Monday 29 May 2006  ENERMET

Enermet Demand Management Strategy Workshop

With record Summer and Winter peaks continuing to emerge the importance of an all year round Demand Management Strategy has never been more paramount. Spend some time with your peers and colleagues discussing the variety of different approaches in dealing with some of the following issues:

- Peak Management
- Price Protection
- Customer Response
- Domestic Air Conditioning load control

Hosted by Enermet, 60 years experience in serving our clients needs.

Monday 29 May 2006

UDS User Conference

UDS will provide current and prospective clients in a relaxed and entertaining environment an update on its latest innovations :

- Instant Meter Reading
- GPRS based data loggers and AMR
- Compumeter R6
- Radix Ce Handheld Computers
- Users Forum

In addition to an update on new products and visions, we have also invited a number of industry innovators to present their visions for the application of some of these new technologies.

Thursday 1 June 2006

Water Meter Mangers Forum (utility personnel only)

Water Meter Mangers Forum hosted by South East Water at their premises.
